Operational Highlights from 2012 - 2013	

#### **OVERVIEW**

#### **Directors' Statement**

In 2012, NaTHNaC celebrated its 10<sup>th</sup> anniversary by welcoming both of us as new directors. We are delighted to have this opportunity, and aim to build upon the national and international reputation built by our predecessor, Professor David Hill, and lead the organisation successfully through its next decade.

When we started, we took some time to review the service, its objectives and accomplishments to date. Faced with some significant financial challenges, recruitment to vacant positions, as well as investment in certain projects such as the re-development of the NaTHNaC website, had to be put on hold. Important internal changes have now been made to strengthen the governance of the organisation, reduce expenditure, and work more efficiently. We are now well placed to move forward with confidence. We would like to thank our commissioners Public Health England (and its predecessor, the Health Protection Agency), University College Hospital NHS Trust, and members of the NaTHNaC Steering Committee for all their support, and each member of the NaTHNaC team for the commitment and dedication they have shown through these times of change.

Our aspiration is to lead the way in travel health. We want to be recognised as an authoritative voice and centre of excellence in this speciality, be known for our partnerships and collaborations, and be admired for our innovations and growth. Central to achieving this is a willing, able and talented team committed to delivering quality services, which provide value for money, yet meet the needs of our users. We will promote a culture of openness, integrity and professionalism, and create a great place to work. Our work over the last year will allow us to achieve this. We now have a robust business plan in place, which will ensure our growth in the years to come, and we are now in a position to expand our team, improve our existing services, and launch some exciting new ones.

Looking ahead we want to do more to understand and respond to the needs of our audience. We will produce new guidance, educational packages, and support frameworks for all health professionals delivering travel services in the UK. We will target key messages, and actively seek opportunities for collaborations, to extend our reach to the British traveller, and to strengthen our national and international

VI- Dyoth

partnerships.

Vanessa Field and Dipti Patel

#### **GOVERNANCE**

NaTHNaC was created by the Department of Health in 2002. We are now commissioned by Public Health England (PHE) and work in partnership with our network founders:

- PHE
- The Hospital for Tropical Diseases
- Liverpool School of Tropical Medicine
- London School of Hygiene and Tropical Medicine
- University College London Hospital (UCLH) NHS Foundation Trust

NaTHNaC's broad aim is to protect the health of the British traveller, and it does this by providing evidence-based advice, information, and training to health professionals, travellers, the travel industry, and to national government.

# **NaTHNaC Steering Committee**

The NaTHNaC Steering Committee has representation from each of the NaTHNaC partners plus PHE, UCLH NHS Foundation Trust and the Department of Health. NaTHNaC is grateful for the support of each member organisation.

#### **Steering Committee members:**

Dr Nick Beeching Liverpool School of Tropical Medicine (Chair)

Dr Ron Behrens Hospital for Tropical Diseases

Dr Graham Bickler

PHE

Dr Michael Brown
 London School of Hygiene and Tropical Medicine

Dr Vanessa Field NaTHNaC

Dr Vanya Gant
 University College London Hospitals NHS Foundation Trust

Dr Jane Jones
 PHE, Travel and Migrant Health Section
 Prof David Lalloo
 Liverpool School of Tropical Medicine

• Dr Ruth Parry (ex officio) Department of Health

Dr Dipti Patel NaTHNaC

Mr Robert Sokoo
 PHE

Ms Melanie Watts
 University College London Hospitals NHS Foundation Trust

Mr John de Vial
 ABTA (observer November 2012 onwards)

#### NaTHNaC Senior Management Team (SMT)

The current NaTHNaC SMT was established by the new directors in June 2012.

The NaTHNaC SMT consists of the directors, business manager, service manager, senior nurse, and clinical adviser. It is chaired by the directors and meets on a monthly basis. The SMT is responsible for the strategic and operational management of NaTHNaC and implementing any policies and strategies as agreed by the Steering Committee.

#### **NaTHNaC Team**

NaTHNaC's expertise is provided by 12 staff based in London or Liverpool. They include doctors, nurses, an information analyst, and administrators (see organogram on page 8).

Terence Corrigan (TC)

Data Manager, London

Carolyn Driver (CD) Specialist Nurse Adviser (Telephone Advice Line Service)

Dr Vanessa Field (VF)

Dr Lisa Ford (LF)

Joint Director, London

Clinical Adviser, Liverpool

Mary Gawthrop (MG) Specialist Nurse Adviser, London

Yetunde Ibitoye (YI) Yellow Fever Programme Administrator, London

Daiga Jermacane (DJ) Senior Information Analyst, London

John Mathewson (JM) Business Manager, London

Linda Pang (LP) Administrative Assistant, London

Dipti Patel (DP) Joint Director, London

Geraldine Oliver (GO) Service Manager, London

Hilary Simons (HS) Senior Specialist Nurse, Liverpool Alexandra Stillwell (AS) Specialist Nurse Adviser, London

Rose Tucker (RT) Specialist Nurse Adviser (Telephone Advice Line Service)

Claire Wong (CW) Specialist Nurse Adviser, Liverpool

#### Yellow Fever Vaccination Centre Associate Trainers

This group of travel health specialists has greatly aided NaTHNaC in training individuals from the 3695 registered Yellow Fever Vaccination Centres in England, Wales and Northern Ireland. NaTHNaC is indebted to each one of them for their help over the last year.

Shirley Bannatyne Specialist Nurse in Travel Medicine, MASTA Lynda Bramham Specialist Nurse in Travel Medicine, MASTA Carolyn Driver Specialist Nurse in Travel Medicine, Cheshire
Norma Evans Specialist Nurse in Travel Medicine, Warrington
Sandra Grieve Specialist Nurse in Travel Medicine, Warwickshire

Alison Jenkins Specialist Nurse in Travel Medicine, Kent

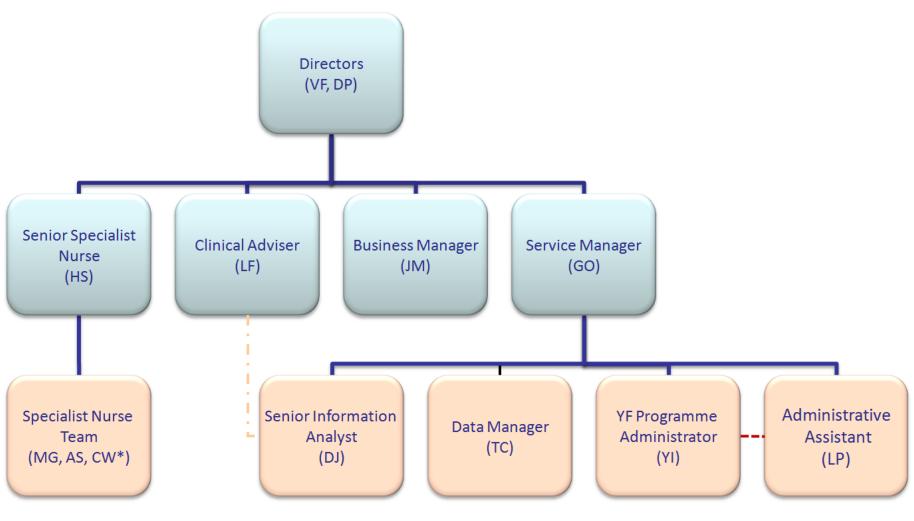

Sarah Lang Specialist Nurse in Travel Medicine, Hertfordshire

Immunisation Advisor, Thames Valley

Joanna Lowry Specialist Nurse in Travel Medicine, Winchester Kath Lynch Specialist Nurse in Travel Medicine, London Cate Riley Specialist Nurse in Travel Medicine, Manchester

Dr Steve Riley General Practitioner, Manchester

Dr Barry Walsh Consultant in Communicable Disease Control, London

\* Left February 2013

#### FINANCIAL REVIEW

The financial statements on pages 10 cover the period from 1 April 2012 to 31 March 2013.

NaTHNaC receives operating funds from three sources:

#### PHE

PHE provides core funding for NaTHNaC on an annual basis, and commissions NaTHNaC to carry out its work, including its programme for Yellow Fever Vaccination Centres (YFVCs). NaTHNaC is hosted by the UCLH NHS Foundation Trust and its headquarters are at 250 Euston Road, London. All monies received from PHE are administered through the trust, and all London-based NaTHNaC personnel (with the exception of the directors) are employees of Liverpool School of Tropical Medicine.

#### The Yellow fever vaccination programme

This comprises both YFVC registration fees and training fees. Registration fees from YFVCs are assigned to the year of receipt and the subsequent year depending upon the period of registration of the individual centre (YFVCs have the option of registering for one or two years).

Yellow fever training programme fees are targeted to recover costs and may be carried over into subsequent years.

#### Other income

The NaTHNaC online shop sells several items: the UK Yellow Book, International Certificates of Vaccination or Prophylaxis, YF Patient Information leaflets, and laminated YF vaccination maps. These contribute a small amount to the operating budget.

Expenditure is divided between the two sites where NaTHNaC operates: the UCLH NHS Foundation Trust in London and the Liverpool School of Tropical Medicine.

# NaTHNaC Financial Report 2012 - 2013

INCOME			£	£
	Brought forward from 2011 - 2012		0	
	Annual Core Funding (PHE)		316,000	
	YFVC Registration Fees (2012-2013)		134,561	
	Registration fees carried forward to 2013/14		-50,000	
	YFVC Training Fees		199,944	
	TOTAL INCOME			600,505
EXPENDITURE				
	Pay	UCLH	303,519	
		LSTM	130,700	
				434,219
	Overheads	UCLH	41,623	
		LSTM	32,675	
				74,298
	YFVC Training Costs		85,806	
	Rent, Rates, Utilities		107,953	
	Project Work & General Expenditure		115,745	
				309,504
	TOTAL EXPENDITURE			818,021
	SURPLUS/DEFICIT			-217,516

#### Notes/Assumptions

- £50,000 registration fee income has been carried forward on the basis that it relates to future periods
- HPA funding of £437,000 was reduced to £316,00 to account for director salaries which are paid directly by PHE\*
- No income has been generated from Yellow Book sales
- Liverpool School of Tropical Medicine overheads are charged at 25% costs
- UCLH overheads are charged at 10% PHE income
- The general expenditure, rates, rent and utilities include some backdated prior year costs from the Stationery Office and Doctors Laboratory respectively

The financial position at the end of 2012-2013 relates to expenditure in 2011-2012, and is complicated by the two-year cycle of income generation from the yellow fever programme (where every alternate year income is carried forward to support the forthcoming year). An internal review of accounts has indicated that the deficit in 2012-2013 relates to an overspend in 2011-2012 resulting in no income being available to carry forward from 2011-2012 to 2012-2013. Some bills were also carried forward to 2012-2013 due to non-payment in 2011-2012.

NaTHNaC has reduced this overspend in 2012-2013 by reducing non-pay expenditure and also by not recruiting to a number of vacant positions. In 2013 UCLH and PHE agreed to cover the costs of the deficit so that there would be a balanced budget for 2013-2014.

10

<sup>\*</sup> Directors are employed directly by PHE since June 2012

#### **OPERATIONS**

This section reviews NaTHNaC's five key service areas, describing how they helped meet our core objectives for 2012-2013, and achieve the goal of "Protecting the Health of British Travellers".

# **Key Service Areas**

- 1. Communication and information services
- 2. International health surveillance
- 3. Partnerships and collaborations
- 4. Telephone advice line service
- 5. Yellow fever vaccination programme

# **Core Objectives**

- Develop consistent and authoritative national guidance on general health matters for health professionals advising the public travelling abroad, and to disseminate this information widely.
- 2. Provide guidance on specific situations relating to the health of travellers.
- 3. Carry out surveillance of infectious and non-infectious hazards abroad, producing accessible regular outputs of such surveillance.
- 4. Administer the Yellow Fever Vaccination Centres (YFVCs).
- 5. Engage the major stakeholders concerned with travel health especially the travel industry, insurance industry and government bodies, to assist in sentinel surveillance and to engage in constructive dialogue towards a unified approach.
- 6. Facilitate, in collaboration with other training providers, the training of health care and other personnel in the provision of best quality travel health advice, based on such evidence as is available.
- 7. To define short-term and long-term research priorities in relation to travel medicine.

KEY SERVICE AREA	ORGNISATIONAL ACHIEVEMENTS	CORE OBJECTIVE
Communication and information services  Website:  Dynamic, evidence-based information for health professionals and travellers.	In 2012 - 2013 the NaTHNaC website received over 1 million visitors with over 4.5 million page views. Thirty-four Health Information Sheets were added/revised, 27 News Items were posted and 99 Clinical Updates (CUs) were posted. The CUs described these global health events, how they might affect British travelers, and provided recommendations on how to mitigate those risks. The CUs received over 190,000 page views.  NaTHNaC's Twitter page was established late 2009. In 2012-2013 we issued 555 tweets and now have over 750 followers. In February 2103, NaTHNaC's launched its Facebook and LinkedIn pages. We have been increasingly well "liked" since that time.	1, 2, 3 1,2,5
National guidance	NaTHNaC has worked with HPA Communications Team and released 6 press releases. Members of the senior team have also featured in several articles in the print media.  NaTHNaC are members of, and contributed to guidance produced by, the travel sub-group of the Joint Committee on Vaccination and Immunisation (JCVI), and Advisory Committee on Malaria Prevention (ACMP).	1,2
International health surveillance  Identification and reporting of health events of importance to British travellers	In 2012-2013, information about 1764 global health events, assessed as being of importance to British travellers, was made publically available on the Outbreak Surveillance Database (OSD). The OSD directly received over 25,000 page views. Two hundred and forty-seven daily outbreak	1,2,3

	summary reports were generated and subsequently used to inform 99 Clinical Updates.  NaTHNaC assisted the HPA in the daily international surveillance of health events with relevance for the London 2012 Olympics and Paralympic Games.	1,3,5
	A review of worldwide epidemiology of specific diseases has been completed and will inform the revision of the country recommendations on the NaTHNaC website to be made during 2013. An external governance group of disease experts from PHE, Hospital for Tropical Diseases and London and Liverpool Schools of Tropical Medicine were invited to oversee this review.	3,6
	An internal review of the surveillance reporting systems, including audit and consultation with stakeholders, began in 2013. Areas for service improvements will be identified	1,5
Partnerships and collaborations		
	NaTHNaC fostered its relationship with other national and international travel health organisations including PHE, Health Protection Scotland, and US Centers for Disease Control and Prevention, Public Health Agency of Canada and World Health Organization.	1,7
	NaTHNaC entered into a new collaboration with MIMS to produce its 'Vaccination and malaria prophylaxis recommendations for travellers' as from October 2012.	1
	NaTHNaC strengthened its relationship with key stakeholders who also communicate with the British travelling public, in particular the Foreign and Commonwealth Office (FCO) and the Association of British Travel Agents (ABTA).	5
	NaTHNaC entered into a partnership with the Royal Society of Hygiene and Tropical Medicine to deliver a travel medicine study day in summer 2013.	6

Telephone advice line service		
Offering support to health professionals who are consulting with complex travellers.	In 2012-2013 NaTHNaC nurses answered 8647 calls on the national telephone advice line. Many calls could not be answered and a review of our call handling began in 2013 aiming to improve this. Over 87% of callers whose calls were answered were very satisfied with the advice they received; 95% rated the service as very valuable to their everyday practice.	1,2
Yellow fever vaccination		
programme	In 2012-2013, 3695 Yellow Fever Vaccinations Centres (YFVCs) in England, Wales and Northern Ireland were registered by NaTHNaC; 220 of these were new centres.	1, 2, 4, 6
Registration, clinical standards, training and audit.	2286 YFVCs received training; 18 full-day face-to-face training days and 62 regional half-day update training days were held. The training received Royal College of Nursing accreditation.	2, 4, 6
	A record number of annual returns were completed online.	
		2, 4
	Two YFVC newsletters were issued.	
	NaTHNaC's e-learning project progressed throughout 2012-2013; YF training online content has	1,6
	been developed in-house and translated into interactive e-learning modules in collaboration with an educational team at UCLH. An e-learning platform, the 'Learning Zone', will be launched in late 2013.	4, 6
	YFVC Code of Practice has been extensively reviewed, revised and agreed by the NaTHNaC Steering Committee. This will be launched with the e-learning project in late 2013.	4

#### Operational highlights from 2012-2013

# **APRIL**

The Health Protection Agency (HPA) and University College London Hospitals NHS Foundation Trust announce

the appointment of the new NaTHNaC Directors, Dr Vanessa Field and Dr Dipti Patel.

To coincide with World Malaria Day, NaTHNaC highlights the publication of the 2011 HPA report on malaria imported into the United Kingdom, and reminds travellers of the importance of seeking pre-travel medical advice and adhering to the ABCD of malaria prevention.

In preparation for the 2012 UEFA European Football Championship in Poland and Ukraine, NaTHNaC issues guidance for health professionals advising football fans.

April sees the launch of the *Self Assessment* and *Audit Tool* for yellow fever vaccination centres (YFVC), and NaTHNaC has the best ever response rate (95%) for YFVC annual returns.

Hilary Simons presents at the Joint Symposium of the Faculty Travel Medicine Royal College of Physicians and Surgeons (RCPS) (Glasgow) and the Royal College of General Practitioners (Scotland).

Lisa Ford presents at the Welsh Immunisation Conference in Newport.

# **MAY**

Following the confirmation of a case of human rabies in a London resident who had returned from South Asia.

NaTHNaC reminds travellers and health

professionals on rabies prevention and the need for prompt medical assessment following any bite, scratch or lick by a warm blooded animal during travel to a rabies endemic country.

Vanessa Field presents at the Asia Pacific Travel Health Conference 2012 in Singapore.

May also sees the publication of the Faculty of Travel Medicine of the RCPS (Glasgow) Recommendations for the practice of travel medicine. Authors include Vanessa Field and Hilary Simons.

#### **JUNE**

Claire Wong is a member of the Scientific Committee of 4th Northern European Conference on Travel

Medicine (NECTM), in Dublin, Ireland.

Lisa Ford, Mary Gawthrop, Dipti Patel, Hilary Simons and Claire Wong present at NECTM on a variety of topics ranging from the pregnant and breastfeeding traveller to medical tourism.

Yetunde Ibetoye and Daiga Jermacane promote the work of NaTHNaC at NECTM.

Dipti Patel is interviewed for an article in the Sunday Times on malaria.

# **JULY**

NaTHNaC works as part of the HPA's international team to provide enhanced international infectious

disease surveillance for the London 2012 Olympic and Paralympic Games. In preparation for summer travel NaTHNaC reminds travellers to Europe of the risk of mosquito and tick-borne diseases.

NaTHNaC is mentioned in a Sunday Times article on how to avoid tropical diseases

# **AUGUST**

Following the report of Hantavirus Pulmonary Syndrome in some visitors to Yosemite National Park, California, USA, NaTHNaC

issues travel advice on the potential risks and prevention measures.

NaTHNaC alerts travellers to Canada of an outbreak of Legionnaire's disease in Quebec.

# **SEPTEMBER**

NaTHNaC informs travel clinics of the limited supply of rabies vaccine in the UK.

NaTHNaC warns travellers about methanol poisoning associated with the consumption of counterfeit alcoholic drinks in the Czech Republic.

In September the Royal College of Nursing publish their new Competencies: *Travel health nursing: career and competence development.*Authors include Alexandra Stillwell.

Dipti Patel presents at a joint conference of the Faculty of Occupational Medicine and the Faculty of Travel Medicine RCPSG (Glasgow).

# **OCTOBER**

NaTHNaC and HPA remind people travelling to Saudi Arabia for the annual Hajj pilgrimage to seek health advice before

making the journey. Their advice includes an update on the novel coronavirus situation.

Following a voluntary recall in Typhim Vi® typhoid vaccine and an expected shortage of typhoid vaccine, NaTHNaC produces an FAQ on typhoid vaccine for healthcare professionals.

NaTHNaC and HPA advise travellers and health professionals of the risk of dengue fever in the Autonomous Region of Madeira following the first report of dengue fever in Madeira.

NaTHNaC and MIMS publish 'Vaccination and Malaria Prophylaxis Recommendations for Travellers' travel charts.

Vanessa Field and Dipti Patel present at the Faculty of Travel Medicine (RCPSG) (Glasgow) Annual Symposium.

# **NOVEMBER**

NaTHNaC celebrates its 10th Birthday.

NaTHNaC clarifies the Australian yellow fever

certificate requirements for travellers arriving from countries with a risk of yellow fever.

Claire Wong presents at the HPA training event on Migrant Health in the Primary Care Setting. Yetunde Ibetoye and Geraldine Oliver represent NaTHNaC at the Migrant Health event.

John De Vial from ABTA joins NaTHNaC steering committee as an observer.

# **DECEMBER**

NaTHNaC and HPA provide travellers with ten top tips for a safe winter holiday.

Following the update to the rabies chapter of *Immunisation against infectious disease: the green book,* NaTHNaC publishes guidance on the implications for clinical practice.

Claire Wong presents at the 23<sup>rd</sup> National Immunisation Conference in Manchester.

Dipti Patel is interviewed by the Sunday Times about the typhoid vaccine shortage in the UK.

# **JANUARY**

NaTHNaC provides an update on yellow fever activity in Africa, and advises health

professionals on the changes to the World Health Organization yellow fever vaccination recommendation maps.

NaTHNaC also highlight two cases of East African trypanosomiasis reported in tourists to Tanzania and Zambia.

Yellow fever training and the YFVC annual return goes paperless.

# **FEBRUARY**

NaTHNaC launches a facebook page. In this month, NaTHNaC achieves a million website visits.

NaTHNaC provides general guidance for travellers and health professionals on viral respiratory tract infections and international travel.

Claire left after over 10 years with NaTHNaC to pursue a career in travel medicine in New Zealand.

# **MARCH**

NaTHNaC provides travellers with simple tips to stay healthy if travelling abroad for an Easter break.

NaTHNaC advises travel clinics about the transitional changes for Patient Group Direction authorisation in the new NHS organisational structures in England.

NaTHNaC changes the NaTHNaC advice line times following a review of the service and feedback from users.

March sees the launch of a NaTHNaC page on LinkedIn

Dipti Patel presents at a joint conference of the Royal Pharmaceutical Society and the Faculty of Travel Medicine RCPSG (Glasgow).

Dr Nick Beeching steps down as Chair of NaTHNaC Steering Committee after 10 years.

NaTHNaC thanks our partner organisations for their support, expertise and commitment to 'Protecting the Health of British Travellers'
